Hi Partha,

First off all, congrats on getting accepted! And thanks for reaching out regarding scholarships.

I wanted to provide a little context on scholarships: Udacity can sometimes provide scholarships thanks to the generous support of corporate sponsors. For this Self-Driving Car Engineer Nanodegree program, NVIDIA was able to sponsor a limited number of scholarships, which have been fully awarded at this point.

We do not currently have any active sponsors for future cohorts (e.g., Nov, Dec, or Jan), so there are no additional scholarships available **… yet**. Our team is working hard to try and secure additional scholarships, but we cannot promise that we'll have more available. If you'd like to be considered for future scholarship opportunities, please complete this form. Please be as detailed and specific as possible when answering the questions so we have sufficient info when considering you for scholarship opportunities.

At this point, we do not have a concrete timeline for publishing results for additional scholarships. That will be dependent on our ability to secure scholarship sponsors and the volume of applications we receive.

Hopefully that helps clarify things. Thanks, and happy learning!

- Stuart
